Version: Installation Procedure for License Server/Release 3.0/February 2011

Install License Server 6.0

Procedure to uninstall the previous version of License Server and install the latest version of License Server

The current release of Tally.ERP 9 is compatible with License Server version 6.0 only.

Users who had installed the previous versions of the license server need to install license server version 6.0 as Tally.ERP 9 will not get the license from older versions of License Servers. The current version of the license server is available with the installer uploaded on the website. License Server 6.0 also supports all the releases of Tally.ERP 9 Series A.

The procedure to install the latest version of the license server is discussed below:

Install License Server in a New Folder

- Take a backup of the data
- Surrender the previously activated **Tally.ERP 9** License.
- To install **License Server 6.0** in a new folder follow the steps shown below:
 - Double click **Install.exe** to run the Installer
 - In the **Version** section select **Server Machine** and uncheck **Tally.ERP 9**.
 - Enter the required path where license server needs to be installed, port number and license server directory or accept the default path & port to proceed.
 - Click **Next**
 - The **Tally.ERP 9Setup** screen displays a list of License Servers installed.
 - Check the required (older) version of the License servers to be uninstalled.
 - Click **Install**.
 - This will uninstall the selected license server and install **License Server 6.0**.
- Re-Activate **Tally.ERP 9** License in the new folder

Install License Server in an Existing Folder

- Take a backup of the data
- Surrender **Tally.ERP 9** License
- To install **License Server 6.0** in the existing folder follow the steps shown below
 - Double click **Install.exe** to run the Installer
 - In the **Version** section select **Server Machine** and uncheck **Tally.ERP 9**.
 - Enter the required path where license server needs to be installed, port number and license server directory or accept the default path & port to proceed.
 - Click **Install**

*When multiple versions of license servers are installed, click **Next** and check the required (older) version of License Server that need to be uninstalled.*

- While installing License Server the installer prompts you with the message **Older version of License Server is already installed. Do you want overwrite with newer version of License Server?**
- Select **Yes** to overwrite the previous version of the license Server with License Server 6.0.
- Re-Activate **Tally.ERP 9** License

Ensure to install and reactivate the latest release of Tally.ERP 9

To Uninstall the License Server Manually

- Go to the folder where previous version of the license server is installed.
- Double click **TallyAdmin.exe** to start **TallyAdmin** tool
- Click **License Service** tab
- Click **Uninstall** to uninstall the previous version of the License Server
